Subject: Re: 2016 Comp Plan Amendment and Wasatch FLUM/Rezone

I am against the rezone. The land currently and in the past has been used for cattle grazing and currently is being leased out for grazing which meets the NR 20 zoning. There has been no significant change in the area to currently warrant a rezone. The rezone would change the rural character of the area with the change. Mr. Henry acquired the property in the 80's and the land was zoned for 20 acres parcels. I feel he has the right to develop his land under the current 20 acre parcel zoning one house per 20 acres. I'm against the clustering of homes in this area which would bring a subdivision tract look to this valley. Please vote no on this rezone it is just another rehash of last years rezone proposal. Thank you Wayne Myron (Aspen Reflection home owner). Mike please forward this email to the planning commission and Commissioners
