County Engineer

January 24, 2019

RE: Courthouse Elevator Replacement 2019

**Addendum #1**

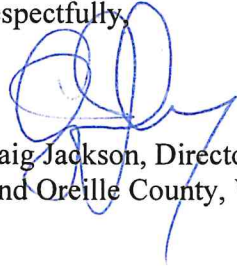

Addendum #1 is a clarification of the requested proposals.

Section 3, Fee Proposal, Paragraph 2 allows for the submission of 1(one) alternate proposal. The County has allowed this submission for a contractor to be able to propose a "Modernization" of the current system. If submitting under this alternate, contractors should explain in full detail the proposed work, system upgrades, engineering and all costs associated with such. Additionally, the alternate should demonstrate timelines, including procurement and installation allotments.

It should be noted that any modernization shall include upgrade of the car's interior. Proposed upgrades shall be shown as a grade package.

Service plan and warranty shall remain unchanged for this alternate.

Respectfully,

  
Craig Jackson, Director of Public Works  
Pend Oreille County, WA
